

I am a designer with a passion for great work. I design aesthetic products with intuitive functionalities to maximize user delight. I enjoy learning new things, observing, translating clever ideas into visuals and expressing unseen concepts and viewpoints.

**PROFESSIONAL EXPERIENCE****Station Digital Media - UX/UI Designer**

- Participated in publicly released projects are iOS and Android Mobile Applications: Hyundai Korea's Blue Link, Kia UVO, Genesis Connected Service, MyHyundai, and Genesis.
- Designed from concept to completion all facets of user interface, including analyzing requirements, researching markets, creating wireframes, flow charts, prototypes, and designing icons, transitions and animations.
- Worked closely with Developers and Product Managers to ensure requirements and UI asset production timetables are met, while ensuring best of both product UX and visual.
- Communicated closely with stakeholders and developers, worked in close alignment with the design team, and reported to the principal UX manager.
